

Laborers' & Retirement Board and Employees' Annuity and Benefit Fund of Chicago

Actuarial Valuation Report for the Year Ending
December 31, 2017
May 2018

May 2, 2018

The Retirement Board of the
Laborers' and Retirement Board Employees'
Annuity and Benefit Fund of Chicago
321 North Clark Street, Suite 1300
Chicago, Illinois 60654

Subject: Actuarial Certification

Dear Members of the Board:

At your request, we have performed an actuarial valuation of the Laborers' and Retirement Board Employees' Annuity and Benefit Fund of Chicago ("the Fund") as of December 31, 2017. An actuarial valuation of the Fund is performed annually. The purposes of the actuarial valuation are to review the funded status of the Fund as of December 31, 2017, and develop the Actuarial Determined Contribution ("ADC") for fiscal year 2018 as defined in GASB Statements Nos. 67 and 68. The assumptions and methods used were recommended by the actuary and approved by the Board. Disclosure information required under GASB Statements Nos. 67 and 68 is provided in a separate report.

We have provided the supporting schedules for the actuarial section of the comprehensive annual financial report, including:

- Active Member Valuation Data;
- Retirees and Beneficiaries Added to and Removed from Rolls;
- Solvency (Termination) Test; and
- Analysis of Financial Experience.

We have also provided the following schedules for the financial sections of the report:

- Schedule of Funding Progress; and
- Schedule of Employer Contributions.

This actuarial valuation is based upon:

- a. **Data Relative to the Members of the Fund** – Data utilized for active members and persons receiving benefits from the Fund was provided by the Fund's staff. We have tested this data for reasonableness; however, we have not audited the data.

- b. Asset Values** – The values of assets of the Fund were provided by the Fund's staff. An actuarial value of assets was used in determining the Actuarial Determined Contribution ("ADC").
- c. Actuarial Method** – The actuarial method utilized by the Fund is the Entry-Age Normal Actuarial Cost Method. The objective of this method is to recognize the costs of Fund benefits over the entire career of each member as a level percentage of compensation. Any Unfunded Actuarial Accrued Liability ("UAAL") under this method is separately amortized. All actuarial gains and losses under this method are reflected in the UAAL.
- d. Actuarial Assumptions** – Updated actuarial assumptions have been adopted by the Board beginning with this actuarial valuation based on the recommendations of the experience study performed for the period from January 1, 2012, to December 31, 2016.
- e. Plan Provision** – The actuarial valuation is based on plan provisions in effect as of December 31, 2017.

The funding objective is to provide employer and employee contributions sufficient to provide the benefits of the Fund when due. Pursuant to Public Act ("P.A.") 100-0023, effective July 6, 2017, the funding policy was amended and requires City contributions to equal \$36 million in payment year 2018, \$48 million in payment year 2019, \$60 million in payment year 2020, \$72 million in payment year 2021 and \$84 million in payment year 2022. For payment years after 2022, the City contribution equals the sum of the net employer normal cost plus a level percent of payroll amortization of the unfunded liability needed to attain a 90 percent funded ratio by 2058 on an open group basis. After 2058, the City contribution equals the amount necessary to maintain the 90 percent funded ratio. While the new statutory funding policy is an improvement over the prior funding policy, it does not comply with generally accepted actuarial standards for the funding of retirement plans, and therefore we recommend strengthening the policy.

The most recent actuarial valuation of the Fund on the State reporting basis indicates that a contribution of \$129 million is needed to adequately finance the Fund in Fiscal Year 2018 on an actuarial basis under a policy of contributing normal cost plus 30-year level dollar amortization of the unfunded liability. This compares to the statutory required City Contribution of \$48 million in tax levy year 2018. It should be noted that the statutory employer contributions have been less than the Actuarial Determined Contribution for the past 12 years and are again expected to be less than the ADC for 2018.

The actuarial valuation results set forth in this report are based on the data and actuarial techniques described above, and upon the provisions of the Fund as of the actuarial valuation date. Based on these items, we certify these results to be true and correct. Alex Rivera and Lance J. Weiss are Members of the American Academy of Actuaries and meet the Qualification Standards of the American Academy of Actuaries to render the actuarial opinion herein.

This report may be provided to parties other than the Fund only in its entirety and only with the permission of the Fund. GRS is not responsible for unauthorized use of this report.

Future actuarial measurements may differ significantly from the current measurements presented in this report due to such factors as the following: plan experience differing from that anticipated by the economic or demographic assumptions; changes in economic or demographic assumptions; increases or decreases expected as part of the natural operation of the methodology used for these measurements (such as the end of an amortization period or additional cost or contribution requirements based on the plan's funded status); and changes in plan provisions or applicable law.

This report should not be relied on for any purpose other than the purpose stated.

The signing actuaries are independent of the plan sponsor.

Respectfully submitted,

Gabriel, Roeder, Smith & Company

Discussion of Valuation Results

This report sets forth the results of the actuarial valuation of the Laborers' and Retirement Board Employees' Annuity and Benefit Fund of Chicago as of December 31, 2017. The purposes of this actuarial valuation are:

1. To develop the Actuarial Determined Contribution for fiscal year 2018, under GASB Statements Nos. 67 and 68; and
2. To review the funding status of the Fund as of December 31, 2016.

The results of the Fund's actuarial valuation for GASB Statements Nos. 67 and 68 financial reporting purposes are provided in a separate report.

The funded status in basic terms is a comparison of the Fund's liabilities to assets expressed as either an unfunded liability or as a ratio of assets to liabilities. This comparison can be measured in various ways. Fund liabilities are dependent on the actuarial assumptions and actuarial cost method. Fund assets can be measured at market value, book value or some variation to smooth the fluctuations that invariably occur from year to year.

For Fund and City financial reports, the funding status is measured using liabilities under the Entry Age Normal funding method and the Actuarial Value of Assets. The Actuarial Value of Assets is determined by annually spreading the difference between expected and actual investment earnings over a five-year period.

Actuarial Obligations of the Fund

The value of all future pension payments, calculated using the actuarial assumptions contained in this report, is the sum of payments to two major groups of beneficiaries – the retired lives and the active lives.

1. Retired Lives:

For those currently receiving known benefits; i.e., current retirees, widows, widowers and children, the value is determined based on estimated future longevity with future benefit payments discounted to present time at the assumed investment earnings rate.

2. Active Lives:

The value of future payments for active employees who will receive benefits in the future is estimated, because the amount of pension is only known at the actual time of retirement. This estimate is made using various assumptions as to future salary increases; probable retirement age; and probability of death, withdrawal or disablement before retirement. For active employees, the goal is to have enough assets on hand at retirement to pay for all future benefits promised. To provide for an orderly accumulation of these required assets, an actuarial funding method is used. Using the "Entry Age Normal" funding method, assets are allocated as a level amount (expressed as a percentage of salary) over the employee's working lifetime. These allocated costs are called "normal costs" and are sufficient, if set aside each year, to fully fund

Discussion of Valuation Results

his or her benefits when and if she or he retires. The actuarial reserve (amount of assets needed now) is the present value of future benefits less the present value of future normal costs to be paid.

The difference between the sum of actuarial reserves for active and retired lives (“the Actuarial Accrued Liability”) and the Actuarial Value of Assets is called the “Unfunded Actuarial Accrued Liability.” If assets exceed the liability, there is a surplus. The unfunded liability depends upon the benefits, the characteristics of the covered group of employees and retirees, the actuarial assumptions and the actuarial funding method. The unfunded liability can be thought of as the amount of assets that will be needed in future years to provide for all future benefits payable when added to the future normal costs determined by the actuarial funding method, and current assets.

3. Actuarial Balance:

For the pension fund to be in balance (funded ratio of 100 percent), the present value of all benefits payable in the future must equal the sum of present assets plus the present value of all future contributions. If a plan is 100 percent funded, it does not mean that no contributions are ever needed again. It simply means that the plan is where it should be at a particular point in time; i.e., the assets of the plan are sufficient to provide for future benefits payable based on service to the date of valuation. **Future contributions are still needed** to fund the “normal costs” for service after the date of the valuation in order to have sufficient assets at retirement to provide the future payments of the total projected benefit.

Summary of Results

The term Annual Required Contribution (“ARC”) is no longer defined in the GASB Statements. However, under GASB Statements Nos. 67 and 68, the Actuarial Determined Contribution (“ADC”) is defined as:

A target or recommended contribution to a defined benefit pension plan for the reporting period, determined in conformity with the Actuarial Standards of Practice based on the most recent measurement date available when the contribution for the reporting period was adopted.

The ADC is presented in the financial statements as Required Supplementary Information and is compared to the actual contributions to the Fund that are calculated under the current statutory funding policy. The ADC under GASB Statements Nos. 67 and 68 for the year ending December 31, 2018, is \$129.25 million. This amount is net of estimated employee contributions of \$18.07 million and is based on a 30-year open amortization period.

Effective with Fiscal Year Ending December 31, 2014, GASB Statement No. 67 replaced GASB Statement No. 25 for pension plan financial reporting requirements. GASB Statement No. 68 replaced GASB Statement No. 27 for employer financial reporting effective with fiscal year ending December 31, 2015.

The significant provisions of GASB Statements Nos. 67 and 68 include:

Discussion of Valuation Results

1. Recognizing the entire Net Pension Liability (similar to the Unfunded Actuarial Liability) on the balance sheet. The Net Pension Liability is comparable to the Net Pension Obligation which was recognized under GASB Statement No. 27.
2. Use of a Single Equivalent Discount Rate based on 7.25 percent for the projected benefits for all current members that can be paid from current assets and projected investment return, future employee contributions from current members and future employer contributions attributable to current members, and a municipal bond rate for the portion of the projected benefits after assets are depleted. The applicable municipal bond rate for fiscal year end 2017 is 3.31 percent.
3. Use of Market Value of Assets to calculate Net Pension Liability.
4. Elimination of the Annual Pension Cost and replacing it with the Pension Expense, which is determined under a much shorter amortization period than 30 years.

Due to the single equivalent discount rate and shorter amortization periods required under GASB Statements Nos. 67 and 68, the unfunded liabilities and pension expense will be much higher and more volatile than under the prior GASB standards. The measurements required under GASB Statements Nos. 67 and 68 are provided in a separate report.

The Unfunded Actuarial Accrued Liability based on the Actuarial Value of Assets increased from \$1,245.61 million to \$1,333.63 million during the year, resulting in a decrease in the funded ratio from 50.4 percent to 48.3 percent. The increase in the Unfunded Actuarial Accrued Liability is mainly attributable to an increase in the Actuarial Accrued Liability due to (1) implementing updated actuarial assumptions that were recommended in the most recent experience study, (2) changes to the provisions of the Fund through P.A. 100-0023 (which provides changes to the funding policy and new benefit provisions for members hired on and after July 6, 2017), (3) unfavorable investment return on the actuarial value of assets due to the recognition of investment losses in 2014, 2015 and 2016, and (4) contributions less than Normal Cost plus interest on the Unfunded Actuarial Accrued Liability. A more thorough examination of these and other factors can be found in the Reconciliation of Unfunded Actuarial Accrued Liability (gain/loss analysis) in Table 2 and the Reconciliation of Funded Ratio in Table 2A.

Based on the Market Value of Assets, the Unfunded Actuarial Accrued Liability decreased from \$1,341.53 million to \$1,311.19 million, and the funded ratio increased from 46.5 percent to 49.2 percent.

According to the 50-year projections provided in Table 4 of this report, the funded ratio is projected to decline from 48.3 percent in 2017 to 44.3 percent in 2020 and then increase gradually to 90.0 percent in 2058. However, the funded ratio doesn't reach 50 percent until 2045.

Discussion of Valuation Results

Plan Membership

The major characteristics of the data on the members of the Fund are summarized as follows:

	December 31, 2016	December 31, 2017
Active Members¹		
Number	2,822	2,794
Vested	2,019	1,979
Non-vested	803	815
Average Age	47.7	48.1
Average Service	15.7	16.1
Average Annual Salary	\$73,761	\$74,604
Inactive Members		
Number	1,476	1,469
Average Age	58.4	59.2
Average Service	2.3	2.1
Retirees		
Number	2,633	2,585
Average Age	70.3	70.5
Average Annual Benefit	\$49,062	\$50,807
Surviving Spouses		
Number	1,073	1,050
Average Age	77.6	77.5
Average Annual Benefit	\$15,129	\$15,629
Reversionary Annuitants²		
Number	27	28
Average Age	71.3	72.1
Average Annual Benefit	\$6,058	\$6,018
Children		
	36	40
Total Members	8,067	7,966

¹Active members include disabled employees.

²Includes 22 Reversionary Annuitants as of December 31, 2016, and 23 Reversionary Annuitants as of December 31, 2017, who are also Survivors.

Total participants receiving benefits under the Fund, including disability, surviving spouses, reversionary annuitants and children, decreased 2.29 percent during 2017, from 4,014 to 3,922. Total expenditures for benefits increased from \$154 million in 2016 to \$155 million during 2017, or 0.65 percent.

Discussion of Valuation Results

Changes in Provisions of the Fund

The following Public Acts were passed in 2017 by the 100th General Assembly that made changes to the Fund Provisions.

P.A. 100-0023 (HB 0042), approved July 6, 2017

P.A. 100-0334 (HB 0350), approved August 25, 2017

P.A. 100-0542 (SB 1714), approved November 9, 2017

Public Act 100-0023, effective July 6, 2017, provides changes to the funding policy and new benefit provisions (“Tier 3”) for members hired on and after July 6, 2017, and any Tier 2 member who irrevocably elects to be subject to the Tier 3 benefit structure.

Public Act 100-0334, effective August 25, 2017, states a person otherwise entitled to a survivor benefit and who has been convicted of a felony in connection with the service rendered by the member, is not eligible for such survivor benefit, if such conviction was after the effective date.

Public Act 100-0542, effective November 9, 2017, requires investment consultants to provide annually as well as prior to being hired, certain disclosures regarding searches involving and investments made with minority owned businesses, female owned businesses, and businesses owned by persons with disabilities.

Investment consultants are required annually, as well as prior to being hired, to provide certain disclosures regarding all compensation and economic opportunity received in the last 24 months from any investment advisors retained by the Fund or any investment advisor that is recommended for selection by the consultant.

A detailed description of the provisions of the Public Acts passed in 2017 can be found in the Historical Information section of this report.

Discussion of Actuarial Assumptions

Actuarial assumptions are used to project future demographic and economic expectations for purposes of valuing the liabilities of the plan. The assumptions should reflect current patterns; however, their primary orientation is the long-term outlook for each factor affecting the actuarial valuation. Thus, while actual experience will fluctuate over the short run, actuarial assumptions are chosen in an attempt to model the future long term experience.

There are two general types of actuarial assumptions:

1. **Demographic Assumptions** – reflect the flow of participants into and out of a retirement system; and
2. **Economic Assumptions** – reflect the effects of the economic climate on a retirement system.

Discussion of Valuation Results

Demographic assumptions can be readily studied over recent plan experience. Economic assumptions can be studied against recent experience; however, future experience is more likely to be a result of outside factors than of plan specifics. The most significant demographic assumptions are active turnover, retirement and post-retirement mortality. The most significant economic assumptions are pay increases, investment return and inflation. Other actuarial assumptions include disability incidence, active mortality and percent married.

The actuarial assumptions have been changed since the last report to reflect the results of the experience study performed for the period January 1, 2012, through December 31, 2016. The Board adopted the new assumptions at their March 20, 2018, meeting.

The change in actuarial assumptions increased the actuarial liability as of December 31, 2017, by \$49.8 million.

Following is a summary of the actuarial assumptions adopted by the Board as a result of the most recent experience study:

Economic Assumptions

- **Price inflation:** Decrease the rate of price inflation from 3.00 percent to 2.25 percent.
- **Retiree Cost-of-Living Adjustment and Increases in the Pay Cap for Pensionable Pay for Participants Hired on and After January 1, 2011:** Reduce the assumed rate of COLA and increases in capped pay for participants hired on or after January 1, 2011, from 1.50 percent to 1.125 percent (from 50 percent of 3.00 percent to 50 percent of 2.25 percent).
- **Investment return:** Decrease the nominal investment return assumption from 7.50 percent to 7.25 percent, net of investment expenses and compounded annually. This reflects an underlying inflation assumption of 2.25 percent.
- **General wage inflation and payroll growth assumption:** Decrease general wage inflation assumption from 3.75 percent to 3.00 percent, which reflects an underlying general or price inflation assumption of 2.25 percent.
- **Salary increase:** Modify the current salary increase assumptions to reflect 3.00 percent wage inflation plus a service-based component for merit, longevity and promotion, ranging from 0.20 percent to 12.00 percent based on years of service.

Mortality Assumptions

- Update post-retirement mortality tables to the most recently published national “blue collar” tables, the RP-2014 Blue Collar Healthy Annuitant Mortality tables. We also assume mortality rates will improve in the future using a fully generational approach, but with the most recently published projection scale, MP-2017. These new mortality tables are a move from a single-dimensional age-based table to a two-dimensional table, where the year a person was born also influences their mortality rate.

Discussion of Valuation Results

- Update pre-retirement mortality tables for active employees to the most recently published national “blue collar” tables, the RP-2014 Blue Collar Employee mortality tables. We also assume mortality rates will improve in the future using a fully generational approach, but with the most recently published projection scale, MP-2017.
- Apply certain scaling factors to the base tables based on the actual mortality experience and the credibility that can be applied to that experience.

Other Demographic Assumptions

- **Retirement rates:** Continue to use predominantly service-based rates with higher rates at older ages. The actual rates of retirement were less than expected for all ages signifying that members are retiring later and in less numbers than expected. Decreased rates for all age and service bands.
- **Turnover rates:** Modified the current service based rates. These modifications include increasing the rate of termination during a member’s first year of service and decreasing rates for service beyond one year.
- **Disability rates:** Continue to value disability as a term cost only, as a majority of disabilities were short-term in nature. Disability costs were increased from 2.50 percent of payroll to 3.00 percent of payroll.

Actuarial Methods and Policies

- **Cost method:** Continue to use the Entry Age Normal cost method, which is required to be used by State Statute.
- **Amortization method:** The State Statute requires fixed City contributions for payment years 2018 through 2022 and level percentage of pay contributions thereafter, such that the funded ratio reaches 90 percent by the end of 2058. There is no separate amortization of the unfunded accrued liability that leads to a 100 percent funding of the accrued liability. This funding method may not comply with generally accepted actuarial principles for the funding of a retirement fund because the funding method targets 90 percent instead of 100 percent.
- **Asset smoothing method:** The asset smoothing method is also defined by State Statute. Gains and losses, the difference between the actual investment return and expected investment return, are smoothed in over a five-year period at a rate of 20 percent per year.
- **Administrative expenses:** Continue to include administrative expenses as an additional component of the normal cost. Administrative expenses are based on the previous years’ administrative expenses and increased by the inflation assumption (2.25 percent) and discounted to the beginning of year. Future administrative expenses, for projection purposes, are assumed to increase at the assumed rate of inflation.
- **Dependent assumptions:** Decrease the current marriage assumption from 85 percent to 75 percent based on the demographics of the valuation census data over the experience study

Discussion of Valuation Results

period. The male spouse is assumed to be three years older than the female spouse. No dependent assumptions are made for current retirees as actual eligible spouse data is provided.

- **Decrement timing:** Maintain decrement timing of middle of year.

Experience Analysis

The Fund had an investment gain in 2017 of \$124.4 million relative to the 7.50 percent expected rate of return, on a market value of assets basis. The loss on an actuarial value of assets basis relative to the 7.50 percent expected rate of return was \$1.2 million.

Individual salary increases varied among plan participants, but the overall increase was lower than anticipated by the actuarial assumptions, resulting in an experience gain of \$21.3 million.

Combined City and employee contributions were less than Normal Cost plus interest on the Unfunded Actuarial Accrued Liability, which resulted in an increase in the Unfunded Actuarial Accrued Liability of \$80.4 million. Contributions lower than Normal Cost plus interest have increased the Unfunded Actuarial Accrued Liability for the past 14 years.

The changes in actuarial assumptions and plan provisions increased the Unfunded Actuarial Accrued Liability by \$49.9 million, or 1.9 percent of the liabilities at December 31, 2017.

There was an additional gain of \$22.2 million from all other factors, including actual retirement, termination, disability, mortality experience and data changes. This is about 0.86 percent of the liabilities at December 31, 2017, which is a reasonable variation.

Tables 2 and 2A summarize the experience gains and losses for the year.

Funding Analysis

The charts beginning on page 13 summarize the various measures of benefit security (funded ratio) examined in this valuation and highlight the trends of the measures.

Discussion of Valuation Results

Conclusion

When measured using the Actuarial Value of Assets, which smooths gains and losses over a five-year period, the funded ratio decreased from 50.4 percent in 2016 to 48.3 percent in 2017. On a market value of assets basis the funded ratio increased from 46.5 percent in 2016 to 49.2 percent in 2017. There are deferred asset gains and losses that will be recognized in the Actuarial Value of Assets in the next four years. Therefore, the funded ratio using the Actuarial Value of Assets is expected to increase slightly toward the funded ratio using the Market Value of Assets. Contributions continue to be insufficient to adequately finance the plan, and will result in further decreases in the funding ratio. Under the current funding policy, the funded ratio is projected to decline from 48.3 percent in 2017 to 44.3 percent in 2020 and then increase gradually to 50.0 percent in 2045 and ultimately to 90.0 percent in 2058.

The current statutory funding policy tends to back-load contributions and defers funding into the future and places a higher burden on future generations of taxpayer, thus we would advise strengthening the current statutory funding policy.

We recommend the following changes:

1. Implementing a funding policy that contributes normal cost plus closed-period amortization as a level percentage of capped payroll amortization of the unfunded liability. A policy which recognizes unfunded liability at the valuation date and not projected liability in the year 2058.
2. Target 100 percent funded; and
3. Shorten the amortization period to 15 to 20 years to avoid negative amortization of the unfunded actuarial accrued liability.

Finally, we strongly recommend that stress testing be performed and we will work with the Fund on developing specific stress testing scenarios.

¹ Change in benefits.

² Change in actuarial assumptions.

The prioritized solvency test is another means of checking a system's progress under its funding program, based on the Actuarial Accrued Liability. In this test, the plan's present assets (cash and investments) are compared with obligations in order of priority: (1) active and inactive member contributions on deposit; (2) the present value of future benefits to present retired lives; and (3) the employer financed portion for present active and inactive members. In a system that has been following the discipline of financing, the obligation for active and inactive member contributions on deposit (present value 1) and the present value of future benefits to present retired lives (present value 2) will be fully covered by present assets (except in rare circumstances). In addition, the Actuarial Accrued Liability for present active and inactive members (present value 3) is covered by the remainder of present assets. Generally, if the system has been following a system of amortizing the Unfunded Liability, the funded portion of present value (3) will increase over time.

Due to the inadequacy of funding, the current assets are only sufficient to cover active and inactive member contributions and 57 percent of retiree liabilities. **The present value of employer financed benefits for active and inactive members is completely unfunded.**

Payable to Vested and Non-Vested Employees	438,637,312	502,792,469
Total APV	<u>\$ 2,318,276,186</u>	<u>\$ 2,479,578,521</u>
Net Assets Available for Benefits, Actuarial Value	<u>\$ 1,263,664,871</u>	<u>\$ 1,245,119,356</u>
Unfunded AAL (AAL in excess of assets)	\$ 1,054,611,315	\$ 1,234,459,165
Percent Funded	54.51 %	50.21 %
Unfunded AAL as Percent of Payroll	506.65%	592.23%
Payroll	\$ 208,154,918	\$ 208,442,487

¹Referred to under State reporting disclosures as the actuarial present value of credited projected benefits.

²The actuarial present value of credited projected benefits is based on the RP-2000 Combined Healthy Mortality Table, sex distinct, set forward one year for males and set back two years for females and a discount rate of 7.50 percent.

³The actuarial present value of credited projected benefits is based on the RP-2014 Blue Collar Healthy Annuitant Mortality Table, sex distinct, with scaling factors of 117 percent for males, and 102 percent for females and applying generational mortality improvement using MP-2017 2-dimensional mortality improvement scales, and a discount rate of 7.25 percent.

Table 8

Actuarial Reserve Liabilities

For the Fiscal Year Ended December 31, 2017

Accrued Liabilities for Active and Inactive Participants ¹	\$ 895,402,709
Reserves For Members in Payment Status:	
Service Retirement Pension	\$ 1,415,843,438
Future Widows of Current Retirees	141,603,092
Surviving Spouse Pension	125,537,027
Children Annuitants	358,784
Subtotal Reserves	\$ 1,683,342,341
Total Accrued Liabilities	\$ 2,578,745,050
Actuarial Value of Assets	\$ 1,245,119,356
Unfunded Actuarial Accrued Liabilities (Surplus)	\$ 1,333,625,694

¹ Accrued liabilities for active participants includes retirement liability for members in ordinary or duty disabled status. Liability for disability benefits is recognized as a one-year term cost of 3.00 percent of pay added to the normal cost.

The actuarial present value of accrued liabilities is based on the RP-2014 Blue Collar Healthy Annuitant Mortality Table, sex distinct, with scaling factors of 117 percent for males, and 102 percent for females and applying generational mortality improvement using MP-2017 2-dimensional mortality improvement scales, and a discount rate of 7.25 percent.

ASSETS OF THE PLAN

Assets of the Plan

The book value of plan assets, net of accounts payable, decreased from \$1.07 billion as of December 31, 2016, to \$1.01 billion as of December 31, 2017, and the market value of plan assets increased from \$1.17 billion as of December 31, 2016, to \$1.27 billion as of December 31, 2017. Table 9 details the development of asset values during 2017 and Table 10 shows the development of the actuarial value of assets as of December 31, 2017.

Table 9
Reconciliation of Asset Values
As of December 31, 2017

	Market Value	Book Value
(1) Value of Assets as of 12/31/2016	\$ 1,167,740,724	\$ 1,068,986,041
(2) Income for Plan Year:		
(a) Member Contributions	\$ 17,410,821	\$ 17,410,821
(b) City Contributions & Miscellaneous	35,456,607	35,456,607
(c) Investment Income Net of Expenses	207,742,585	51,818,923
(d) Income from Securities Lending	238,660	238,660
(e) Total Income	\$ 260,848,673	\$ 104,925,011
(3) Disbursements for Plan Year:		
(a) Benefit Payments - Pension	\$ 154,767,434	\$ 154,767,434
(b) Benefit Payments - Health Insurance Supplement	-	-
(c) Refunds and Rollovers	2,282,455	2,282,455
(d) Administration and OPEB Expenses	3,984,947	3,984,947
(e) Total Disbursements	\$ 161,034,836	\$ 161,034,836
(4) Value of Assets as of 12/31/2017	\$ 1,267,554,561	\$ 1,012,876,216
(5) Estimated Rate of Return in 2017:		
(a) Gross (Investment Expense of \$8,462,764)	19.44%	5.96%
(b) Net of Investment Expense	18.68%	5.13%

PLAN MEMBER DATA

Exhibit A
Summary of Changes in Active and Inactive Participants
For the Year Ending December 31, 2017

Active Participants ¹	Number at Beginning of Year	New	Inactive to Active	Total Increases	Decreases	Number at End of Year
Males	2,274	66	9	75	114	2,235
Females	548	31	6	37	26	559
Active Total	2,822	97	15	112	140	2,794
Inactive Participants	Number at Beginning of Year	New	Active to Inactive	Total Increases	Decreases	Number at End of Year
Males	1,313	11	44	55	55	1,313
Females	163	-	7	7	14	156
Inactive Total	1,476	11	51	62	69	1,469
Total - Actives and Inactives	4,298	108	66	174	209	4,263

¹All employees receiving ordinary and duty disability benefits are included in the active count.

Exhibit B

Summary of Changes in Annuitants and Beneficiaries For the Year Ending December 31, 2017

Annuitants and Beneficiaries	Number at Beginning of Year	Additions During Year	Terminations During Year	Number at End of Year
Employee Annuitants	2,633	93	141	2,585
Surviving Spouse Annuitants ¹	1,073	57	80	1,050
Reversionary Annuitants ²	27	2	1	28
Child Annuitants	36	11	7	40
Annuitant Totals	3,769	163	229	3,703
Actives Receiving Disability				
Ordinary Disability Benefit	48	76	81	43
Duty Disability Benefit	197	186	207	176
Disability Totals	245	262	288	219
Totals	4,014	425	517	3,922

¹ Terminations during the year include two surviving spouses reclassified as reversionary annuitants.

² Includes 22 Reversionary Annuitants as of December 31, 2016, and 23 Reversionary Annuitants as of December 31, 2017, that are also Survivors.

**ACTUARIAL METHODS AND ASSUMPTIONS AS OF
DECEMBER 31, 2017**

Actuarial Methods and Assumptions

As of December 31, 2017

Actuarial Cost Method

An Actuarial Cost Method is a set of techniques used by the actuary to develop contribution levels under a retirement plan. The principal Actuarial Cost Method used in this valuation is the Entry Age Normal Actuarial Cost Method. Under this Method, a Normal Cost is developed by spreading the actuarial value of benefits expected to be received by each active participant over the total working lifetime of that participant, from date of hire to termination, as a level percentage of pay.

To the extent that current assets and future Normal Costs do not support participants' expected future benefits, an Unfunded Actuarial Accrued Liability ("UAAL") develops. The UAAL is generally amortized over a defined period of time (e.g., 30 years). The total contribution developed under this method is typically the sum of the Normal Cost and the payment toward the UAAL.

Estimated annual administrative expenses are usually added to the normal cost. This method is used for LABF.

Current Actuarial Assumptions (Adopted as of December 31, 2017, unless otherwise stated)

Demographic Assumptions

Mortality:

Post Retirement Mortality: Scaling factors of 117 percent for males, and 102 percent for females of the RP-2014 Blue Collar Healthy Annuitant mortality table, sex distinct, with generational mortality improvement using MP-2017 2-dimensional mortality improvement scales recently released by the SOA. This assumption provides a margin for mortality improvements. No adjustment is made for post-disabled mortality.

Pre-Retirement Mortality: Scaling factors of 109 percent for males, and 103 percent for females of the RP-2014 Blue Collar Employee mortality table, sex distinct, with generational mortality improvement using MP-2017 2-dimensional mortality improvement scales recently released by the SOA. This assumption provides a margin for mortality improvements.

Future mortality improvements in pre- and post-retirement mortality are reflected by projecting the base mortality tables back from the year 2014 to the year 2006 using the MP-2014 projection scale and projecting from 2006 using the MP-2017 projection scale.

Actuarial Methods and Assumptions As of December 31, 2017

Age	Future Life Expectancy (years) in 2017		Future Life Expectancy (years) in 2030	
	Postretirement		Postretirement	
	Male	Female	Male	Female
35	46.33	51.29	48.58	52.50
40	41.26	46.06	43.44	47.25
45	36.29	40.93	38.40	42.09
50	31.43	35.89	33.48	37.03
55	26.76	30.99	28.72	32.10
60	22.35	26.32	24.16	27.35
65	18.25	21.87	19.87	22.80
70	14.47	17.62	15.90	18.48
75	11.03	13.69	12.29	14.48

Disability: Liability for disability benefits is recognized as a one-year term cost of 3.00 percent of pay added to the normal cost.

Actuarial Methods and Assumptions As of December 31, 2017

Rate of Retirement:

Attained Age	Tier 1 Age-and-Service-Based Rates of Retirement								
	Years of Service								
	10	11-14	15-19	20-24	25-29	30-32	33-34	35-39	40+

Actuarial Methods and Assumptions As of December 31, 2017

Rate of Termination:

Service ¹	Rate
0	20.00%
1	7.00%
2-3	4.00%
4-5	3.00%
6-9	2.00%
10-19	1.50%
20+	1.00%

¹Based on service at beginning of valuation year.

Economic Assumptions

Investment Return Rate
and Discount Rate:

7.25 percent per year (net of investment expense). The 7.25 percent assumption is composed of a 2.25 percent inflation assumption and a 5.00 percent real rate of return assumption.

Future Salary Increases:

The assumed base rate of individual salary increase is 3.00 percent per year, plus a service-based increase in the first 15 years.

Completed Years of Service ¹	Additional Increase	Total Increase
1	12.00 %	15.00 %
2	9.50	12.50
3	7.00	10.00
4 – 6	2.00	5.00
7	3.00	6.00
8	1.00	4.00
9	0.20	3.20
10 – 30+	0.00	3.00

¹Based on projected service at end of valuation year.

Asset Value:

The Actuarial Value of Assets is smoothed by using a five-year phase-in of each year's unexpected investment gains and losses.

Expenses:

Administrative expenses included in the normal cost are based on the previous years' administrative expenses increased by 2.25 percent and discounted to the beginning of the year. Future administrative expenses are assumed to increase at the assumed inflation assumption of 2.25 percent.

Actuarial Methods and Assumptions

As of December 31, 2017

Projection Assumptions

Population: The active population is assumed to remain stable at the December 31, 2017, level.

New Entrant Profile: New entrants in the projection are assumed to have the following characteristics:

	Before Pay Cap	After Pay Cap
Average Age:	34.46	34.46
Average Salary:	\$ 50,714	\$ 50,690
Minimum Salary:	\$ 10,592	\$ 10,592
Maximum Salary:	\$130,494	\$113,645

New entrant characteristics are based upon current members who have been hired in the last 10 years. Approximately 77 percent of new entrants are assumed to be male.

Individual member new entrant uncapped pay at hire date is assumed to increase by 3.00 percent over the individual member new entrant pay during the prior period.

New entrant pay is calculated explicitly each year for each individual new entrant and is tested against the pensionable pay cap in the applicable year.

Individual new entrant pay once hired is assumed to increase in accordance with the salary increase assumptions used in the actuarial valuation until the pensionable pay cap is reached. Thereafter, pay increases at the same rate as the pay cap.

P.A. 96-0889 and P.A. 96-1490
Assumptions: Capped (pensionable pay) was \$113,644.91 for fiscal year 2018 and increases at ½ CPI thereafter.

Employee and employer contributions and benefits are based on capped pay.

The annual increase in the Consumer Price Index-U is assumed to be 2.25 percent for all years.

Disability Payments in Lieu are assumed to reduce the applicable members' contributions used in the determination of the City's contribution by 7.6 percent.

Actuarial Methods and Assumptions

As of December 31, 2017

Other Assumptions

Marital Status:	It is assumed that 75 percent of active members have an eligible spouse. The male spouse is assumed to be three years older than the female spouse. No assumption is made about other dependents.
Reciprocal Service:	No assumption for reciprocal service.
Benefit Service:	Exact fractional years of service are used to determine the amount of benefit payable.
Decrement Timing:	All decrements are assumed to occur mid-year.
Decrement Relativity:	Decrement rates are used directly from the experience study, without adjustment for multiple decrement table effects.
Decrement Operation:	Turnover decrements do not operate after member reaches retirement eligibility for a minimum annuity formula benefit.
Eligibility Testing:	Eligibility for benefits is determined based upon the age nearest birthday and service on the date the decrement is assumed to occur.
Pay Increase Timing:	Middle of (fiscal) year.
Loss in Tax Levy:	No loss on tax levy is assumed.

Actuarial Methods and Assumptions

As of December 31, 2017

Three Methods of Financing Unfunded Liability

Normal Cost

Plus Interest Method: This is the method that was used in actuarial valuations prior to 1997. It is intended to continue the current provisions of the Article governing the Plan in full force and effect on a permanent basis and in the amount required each year to keep the unfunded liability from increasing if all assumptions are realized.

The normal cost plus interest only method of funding is that recommended by the former Illinois Public Employees' Pension Laws Commission. It was also the minimum required for private pension plans for IRS qualification before ERISA.

Normal Cost Plus

Amortization

Method:

We have calculated the cost of amortizing the existing unfunded liability under a 30-year open amortization period.

Both of these cost methods, the normal cost plus interest method and the normal cost plus amortization method, express the past service costs as a level annual dollar amount. It assumes that there will be a stable membership with a growing payroll. Consequently, as the total payroll increases in the future, the level annual dollar amount becomes a decreasing percent of the total payroll.

Under both methods, level dollar amounts represent a greater percent of payroll initially and a decreasing percent of payroll as future payrolls increase.

Level Annual Percent of Payroll Method:

An alternative method for funding that is commonly used for public employee pension plans is a method that sets the funding standard cost objective as a level annual percent of payroll rather than as a level annual dollar amount. This method will result in increasingly greater dollar amounts each year as payrolls increase.

For the Retirement Board's guidance, we have estimated the financial effects of these different amortization methods. The costs under these funding methods are contingent upon all actuarial assumptions being met and continued active membership at the same level. These three methods meet the requirements set forth in Illinois Compiled Statutes, Chapter 40, and Section 5/1A-102.

Actuarial Methods and Assumptions As of December 31, 2017

Actuarial Assets with Various Amortization Methods	Required 2018 Tax Levy	Effective Multiple Employer Contribution ¹	Unfunded Liability Will	Employer Contribution Portion Applicable to Unfunded Liability
1. Normal Cost Plus Interest Only	N/A	7.44	Remain Constant	\$90,151,853
2. Normal Cost Plus 30-Year Level Dollar Amortization	N/A	8.28	Decrease	\$102,735,335
3. Normal Cost Plus 30-Year Level % of Payroll	N/A	6.33	Increase	\$75,206,749
4. Present Law	\$48,000,000	3.08		

¹Pursuant to P.A. 100-0023, statutory contributions through tax levy year 2022 are a fixed dollar amount and the employer multiple contribution no longer applies.

When evaluating and selecting a funding policy, it is important to consider the projected improvement of the funded ratio over time. In addition, the current and projected future funded status can change significantly downward or upward due to unfavorable or favorable experience on investment returns, salary increases, retirement patterns, longevity and changing plan membership.

**SUMMARY OF PROVISIONS OF THE FUND AS OF
DECEMBER 31, 2017**

Summary of Principal Eligibility and Benefit Provisions As of December 31, 2017

Plan Description

Any employee of the City of Chicago or the Board of Education employed under the provisions of the municipal personnel ordinance as labor service or any person employed by a retirement board of any annuity and benefit fund in the city is covered by the Laborers' and Retirement Board Employees' Annuity and Benefit Fund of Chicago (Laborers' Plan) which is a defined benefit single employer pension plan with a money purchase minimum. Although this is a single employer plan, the defined benefits, as well as the employer and employee contribution levels, are mandated in Illinois Compiled Statutes (Chapter 40, Pensions, Article 5/11) and may be amended only by the Illinois legislature. The City of Chicago accounts for the plan as a pension trust fund. The City of Chicago payroll for employees covered by the Laborers' Plan for the year ended December 31, 2017, was \$208,442,487. At December 31, 2017, the Laborers' Plan membership consisted of:

Retiree, surviving spouse, reversionary annuitant and child annuitants currently receiving benefits	3,703
Terminated inactive employees entitled to benefits or a refund of contributions but not yet receiving them	1,469
Current employees (includes 219 disabilities)	2,794

The Laborers' Fund provides retirement benefits as well as death and disability benefits. Employees age 55 or more with at least 10 years of service are entitled to receive a money purchase annuity with partial city contributions if under age 60 with less than 20 years of service. Employees age 55 or more with at least 20 years of service or age 50 or more with at least 30 years of service are entitled to receive a minimum formula annuity of 2.4 percent per year of service times the final average salary (highest average annual salary for any 4 consecutive years within the last 10 years of service immediately preceding the date of retirement). If the employee retires prior to age 60, the annuity shall be reduced by $\frac{1}{4}$ of 1.00 percent for each month the employee is under age 60, unless the employee is 50 or over with at least 30 years of service or 55 or over with at least 25 years of service. The original annuity is limited to 80 percent of the highest average annual salary. Beginning January 1, 1999, there is a 10-year deferred vested benefit payable at age 60. Employees who retire at age 60 or over with at least 10 years of service are entitled to a minimum of \$850 per month.

The monthly annuity is increased by 3.00 percent in January of the year of the first payment date following the later of age 60 or the first anniversary of retirement, and by 3.00 percent annually thereafter; except that for an employee retiring prior to age 60 the first increase will occur no later than January of the year of the first payment date following the later of (1) the third anniversary of retirement or (2) the attainment of age 53.

Participants who first became members on or after January 1, 2011, are subject to different retirement eligibility conditions and benefit provisions as described on the following pages.

Summary of Principal Eligibility and Benefit Provisions As of December 31, 2017

Plan Description (cont'd)

Covered employees are required to contribute 8.50 percent of their salary to the Laborers' Plan. If an employee leaves covered employment without qualifying for an annuity, accumulated contributions are refunded with 3.00 percent interest.

The City of Chicago is required by state statutes to contribute the remaining amounts necessary to finance the requirements of the Fund. In payment years prior to 2018, it is required to levy a tax at a rate not more than an amount equal to the total amount of contributions by the employees to the Fund made in the calendar year two years prior to the year for which the annual applicable tax is levied, multiplied by 1.00 annually. Beginning in payment year 2018, City contributions are equal to \$36 million in payment year 2018, \$48 million in payment year 2019, \$60 million in payment year 2020, \$72 million in payment year 2021 and \$84 million in payment year 2022. For payment years after 2022, the City contribution equals the sum of the net employer normal cost plus a level percent of payroll amortization of the unfunded liability needed to attain a 90 percent funded ratio by 2058 on an open group basis. After 2058, the City contribution equals the amount necessary to maintain the 90 percent funded ratio.

Participants that first became members on or after January 1, 2011, are subject to a cap on pensionable salary upon which contributions are made as described on the following pages.

Definitions

These terms are defined in Article 1A of the Illinois Pension Code *Regulation of Public Pensions*.

“Accrued liability” means the actuarial present value of future benefit payments and appropriate administrative expenses under a plan, reduced by the actuarial present value of all future normal costs (including any participant contributions) with respect to the participant included in the actuarial valuation of the plan.

“Actuarial present value” means the single amount, as of a given valuation date, that results from applying actuarial assumptions to an amount or series of amounts payable or receivable at various times.

“Actuarial value of assets” means the value assigned by the actuary to the assets of a plan for the purposes of an actuarial valuation.

“Beneficiary” means a person eligible for or receiving benefits from the pension fund.

“Credited projected benefit” means that portion of a participant’s projected benefit based on an allocation taking into account service to date determined in accordance with the terms of the plan based on anticipated future compensation.

“Current value” means the fair market value when available; otherwise, the fair value as determined in good faith by a trustee, assuming an orderly liquidation at the time of the determination.

Summary of Principal Eligibility and Benefit Provisions As of December 31, 2017

“Normal cost” means that part of the actuarial present value of all future benefit payments and appropriate administrative expenses assigned to the current year under the actuarial valuation method used by the plan (excluding any amortization of the unfunded accrued liability).

“Participant” means a participating member or deferred pensioner or annuitant of the pension fund, or a beneficiary thereof.

“Pension Fund” or “Fund” means the Laborers’ and Retirement Board Employees’ Annuity and Benefit Fund of Chicago established under Article 11 of the Illinois Pension Code.

“Plan year” means the calendar year for which the records of a given plan are kept.

“Projected benefits” means benefit amounts which are expected to be paid at various future times under a particular set of actuarial assumptions, taking into account, as applicable, the effect of advancement in age and past and anticipated future compensation and service credits.

“Supplemental annual cost” means that a portion of the unfunded accrued liability is assigned to the current year under one of the following bases:

1. Interest only on the unfunded accrued liability;
2. The level annual amount required to amortize the unfunded accrued liability over a period not exceeding 30 years (40 years for pension unfunded accrued liability prior to 2007); and
3. The amount required for the current year to amortize the unfunded accrued liability over a period not exceeding 30 years as a level percentage of payroll (40 years for pension unfunded accrued liability prior to 2007).

“Total annual cost” means the sum of the normal cost plus the supplemental annual cost.

“Unfunded accrued liability” means the excess of the accrued liability over the actuarial value of the assets of a plan.

“Vested pension benefit” means an interest obtained by a participant or beneficiary in that part of an immediate or deferred benefit under a plan which arises from the participant’s service and is not conditional upon the participant’s continued service for an employer any of whose employees are covered under the plan, and which has been forfeited under the terms of the plan.

Participants

Any person employed by the City or the Board of Education in a position classified as labor service of the employer, any person employed by the Board and any person employed by the Retirement Board of any other Annuity and Benefit Fund which is in operation for the employer.

Summary of Principal Eligibility and Benefit Provisions As of December 31, 2017

Service

For minimum annuity, one half-year credit is given for one complete month of service and a full year credit is given for one complete month of service plus service in at least five other months. For money purchase annuity, 700 hours of service in any calendar year constitutes one year of service credit. For Ordinary Disability credit, the exact number of days, months and years is used.

Retirement Annuity

Money Purchase Formula

Maximum is 60 percent of highest salary. Applies in cases where an employee is age 55 or older and has a minimum of 10 years of service. If employee is age 55 to 60 with service less than 20 years, the annuity is based on all employee deductions plus 1/10th of the City contributions for each year over 10. In the case of withdrawal before age 55 and application after age 55, the annuity is based on employee deductions plus 1/10th of the City contributions for each year over 10, with interest to date of application or age 55, whichever is later. The age factor for age 55 is used.

The annuity is based on all employee deductions and City contributions in cases where the employee is (a) age 55 to 60 with 20 or more years of service; (b) age 60 or older; or (c) resigning at the time of disability credit expiration.

Minimum Annuity Formula

Maximum is 80 percent of final average salary.

An employee age 60 or older with at least 10 years of service, or an employee age 55 or older, with at least 20 years of service, or an employee age 50 or older with at least 30 years of service, is entitled to an annuity equal to 2.40 percent, for each year of service of the final average salary during the four highest consecutive years within the last 10 years of service prior to retirement. If the employee withdraws from service before age 60 with less than 20 years of service, he can begin to receive an annuity no earlier than age 60. For an employee who is eligible to begin receiving an annuity before age 60, the annuity is discounted 0.25 percent for each month the employee is younger than age 60, unless he has at least 30 years of service and is age 50 or over, or has at least 25 years of service and is age 55 or over.

The employee will receive a minimum annuity of \$850 per month if the employee withdraws from service at age 60 or older with at least 10 years of service.

Participants who first became members on or after January 1, 2011, but prior to July 6, 2017, are first eligible for an unreduced annuity benefit upon attainment of age 67 with 10 years of service. Members are first eligible to begin receiving a reduced annuity benefit upon attainment of age 62 with 10 years of service. The annuity is discounted 0.50 percent for each full month the employee is younger than age 67.

Summary of Principal Eligibility and Benefit Provisions As of December 31, 2017

Final average salary is calculated using salary from the eight highest consecutive years within the last 10 years of service prior to retirement. Pensionable salary is limited to \$106,800 in 2011, increased by the lesser of 3 percent and one-half of the annual unadjusted percentage increase in the Consumer Price Index-U (but not less than zero) as measured in the preceding 12-month period ending with the September preceding the November 1, which is the date that the new amount will be calculated and made available to the pension funds.

Participants who first became members on or after July 6, 2017, or participants who first became members on or after January 1, 2011, but prior to July 6, 2017, and irrevocably elected this benefit structure are first eligible for an unreduced annuity benefit upon attainment of age 65 with 10 years of service. Members are first eligible to begin receiving a reduced annuity benefit upon attainment of age 60 with 10 years of service. The annuity is discounted 0.50 percent for each full month the employee is younger than age 65. Final average salary is calculated using salary from the eight highest consecutive years within the last 10 years of service prior to retirement. Pensionable salary is limited to \$106,800 in 2011, increased by the lesser of 3 percent and one-half of the annual unadjusted percentage increase in the Consumer Price Index-U (but not less than zero) as measured in the preceding 12-month period ending with the September preceding the November 1, which is the date that the new amount will be calculated and made available to the pension funds.

Reversionary Annuity

An employee may elect to reduce his or her annuity by an amount less than or equal to \$400 to provide a reversionary annuity for a spouse, parent, child, brother or sister, to begin upon the employee's death. The election must be made before retirement and have been in effect one year prior to death. The one-year requirement is waived if the beneficiary is the employee's spouse. The death of the employee before retirement voids this election. The reversionary annuity cannot exceed 100 percent of the employee's reduced annuity. If the employee resigns after June 30, 1983, the 3.00 percent automatic annual increase in the annuity will be computed on the original, not the reduced, annuity; if the beneficiary dies before the employee annuitant, the full annuity is restored for annuities granted after June 30, 1983. The amount of the monthly reversionary annuity is determined by multiplying the amount of the monthly reduction in the employee's annuity by a factor based on the age of the employee and the difference between the ages of the employee and the reversionary annuitant at the starting date of the employee's annuity.

Summary of Principal Eligibility and Benefit Provisions As of December 31, 2017

Automatic Increase in Annuity

An employee annuitant is entitled to receive an increase of 3.00 percent of the currently payable annuity (compound). This increase begins in January of the year of the first payment date following the earlier of:

- 1.) The later of the third anniversary of retirement and age 53; and
- 2.) The later of the first anniversary of retirement and age 60.

Increases apply only to life annuities.

An employee annuitant that first became a member on or after January 1, 2011, that is eligible to receive an increase in annuity benefit, shall receive an annual increase equal to the lesser of 3 percent and one-half of the annual unadjusted percentage increase in the Consumer Price Index-U (but not less than zero) as measured in the preceding 12-month period ending with the September preceding the increase. The increase is based on the amount of the originally granted benefit (simple). This increase begins on January 1 of the year of the first payment date following the later of:

- 1.) *Attainment of age 67 for members hired on or after January 1, 2011, but prior to July 6, 2017;*
- 2.) *Attainment of age 65 for members hired on or after July 6, 2017, or participants that first became members on or after January 1, 2011, but prior to July 6, 2017, and irrevocably elected the Tier 3 benefit structure; and*
- 3.) *The first anniversary of the annuity start date.*

Spouse Annuity

The surviving spouse annuity is the greater of the annuity under the money purchase formula or the minimum annuity formula. Surviving spouses who remarry on or after September 4, 2000, will not have their annuities terminated.

Money Purchase Formula

When an employee retires, the spouse's annuity is fixed, based on employee deductions and City contributions made for spouses' annuity purposes and a joint life age factor. (If the employee is a female, these are deductions accumulated since October 1974.)

If the employee dies in service, the spouse's annuity is based on all sums accumulated to their credit.

For 3.00 percent annuities fixed on or after August 1, 1983, the "Combined Annuity Mortality Table" shall continue to be used; however, surviving spouse's single life annuities and reversionary annuities shall be computed using the best factor (the factor producing the highest annuity), without regard to gender.

Spouses' Minimum Annuity Formula

If the employee retires or dies in service and is at least age 55 with 20 or more years of service, or is at least age 50 with 30 or more years of service, the spouse's annuity is equal to half the amount of annuity

Summary of Principal Eligibility and Benefit Provisions As of December 31, 2017

the employee was entitled to receive at the time of retirement or death in service. This annuity must then be discounted 0.25 percent for each month the spouse is under age 55 (or age 50 if the employee had at least 25 years of service) at the time the employee retires or dies in service.

If the employee dies while receiving a retirement annuity, the spouse is eligible for an annuity of one-half of the employee's annuity at death. This annuity is discounted for his/her age under 55 at the time of the employee's death, unless the employee had at least 25 years of service and withdrew from service on or after June 27, 1997, in which case the spouse annuity would be discounted for spouse age under 50 at the time of the employee's death.

If the employee dies in service on or after January 1, 2002, with at least 10 years of service, the spouse is entitled to an annuity of half of the minimum formula annuity earned and accrued to the credit of the employee at the date of death. For the purposes of this benefit, the minimum formula annuity earned and accrued to the credit of the employee is equal to 2.40 percent for each year of service of the highest average annual salary for any four consecutive years within the last 10 years of service immediately preceding the date of death, up to a maximum of 80 percent of the highest average annual salary. This annuity is not reduced due to the age of the employee or spouse. The spouse is eligible for this annuity only if the marriage was in effect for 10 full years or more.

The spouse will receive a minimum annuity of \$800 per month if the employee retires with at least 10 years of service or dies in service with at least five years of service.

For participants that first became members on or after January 1, 2011, the annuity payable to the surviving spouse is equal to 66 2/3 percent of the participant's earned retirement annuity at the date of death without a reduction due to age.

Automatic Increase in Annuity

The widow or survivor of a participant that first became a member on or after January 1, 2011, shall receive an annual increase equal to the lesser of 3 percent and one-half of the annual unadjusted percentage increase in the Consumer Price Index-U (but not less than zero) as measured in the preceding 12-month period ending with the September preceding the date of the increase. The increase is based on the amount of the originally granted survivor's benefit (simple). This annual increase begins on January 1 following the commencement of the widow's or survivor's annuity if the deceased member died while receiving an annuity benefit and on January 1 following the first anniversary of the commencement of the annuity otherwise.

Child's Annuity

A child's annuity is provided for unmarried children of a deceased employee who are under the age of 18, if the child was conceived or born before the withdrawal from service. The annuity is \$220 per month while the spouse of the deceased employee is alive and \$250 per month if the spouse is deceased.

Summary of Principal Eligibility and Benefit Provisions As of December 31, 2017

Family Maximum

Non-Duty Death: 60 percent of final monthly salary.
Duty Death: 70 percent of final monthly salary.

Disabilities

Duty Disability Benefits

Any employee who becomes disabled as the result of an injury incurred in the performance of any act of duty shall have a right to receive a duty disability benefit in the amount of 75 percent of salary at date of injury, plus \$10 a month for each unmarried child (the issue of the employee) less than age 18. Child's duty disability benefit is limited to 15 percent of the employee's salary as of the date of injury. Duty disability benefits begin one day after the later of the last day worked or the last day paid.

If the disability has resulted from any mental disorder, physical defect or disease which existed at the time such injury was sustained, the duty disability benefit shall be 50 percent of salary at date of injury. Disablement because of heart attacks, strokes or any disablement due to heart disease shall not be considered the result of an accident suffered in the performance of duty; however, the employee will receive service credit and the City will contribute salary deductions for annuity purposes if the employee is receiving Workers' Compensation.

A duty disability benefit is payable to age 65 if the disability benefits begin before age 60. For an employee who begins disability on or after age 60, disability will continue for five years. A duty disability benefit which continues for more than five years and which starts before the employee's age 60, will be increased by 10 percent on January 1st of the sixth year. The City contributes salary deductions for annuity purposes for the duty disability benefit. Such amounts contributed by the City after December 31, 1983, while the employee is receiving duty disability benefits, are not refundable to the employee and will be used for annuity purposes only.

Ordinary Disability Benefit

This benefit is granted for disability incurred other than in performance of an act of duty and is 50 percent of salary as of the last day worked. The first payment shall be made one month after the disablement occurs. Disability is payable until age 65 and limited to a maximum of 25 percent of the employee's total service or five years, whichever occurs first.

For ordinary disability benefits paid on or after January 1, 2001, the Fund credits amounts equal to the amounts ordinarily contributed by an employee for annuity purposes for any period during which the employee receives ordinary disability. These amounts are used for annuity purposes but are not credited for refund purposes.

Summary of Principal Eligibility and Benefit Provisions As of December 31, 2017

Refunds

To Employees

An employee who resigns before age 55, or before age 60 with less than 10 years of service, is entitled to all salary deductions for retirement annuity and spouse annuity accumulated with interest to date of resignation, plus the 0.50 percent deducted for annuity increase purposes without interest.

If the annuity of an employee is less than \$800 a month, the employee may elect to receive a refund, as above, in lieu of an annuity.

Spouse's annuity deductions are payable to the employee if not married when he retires.

For participants that first became members on or after January 1, 2011, an employee who resigns before age 62 without regard to length of service or with less than 10 years of service regardless of age is entitled to all salary deductions for retirement annuity and spouse annuity accumulated with interest to date of resignation, plus the 0.50 percent deducted for annuity increase purposes without interest.

To Spouses

The spouse may choose a refund in lieu of annuity if the annuity would be less than \$800 per month.

Remaining Amounts

Amounts contributed by the employee excluding 0.50 percent deductions for annuity increases, and which have not yet been paid out as annuity, are refundable to his estate with interest to his retirement or death if the employee died in service.

Deductions and Contributions

Tier 1 members (hired before January 1, 2011) are required to contribute 8.50 percent of their salary to the pension fund.

Tier 2 members (hired on or after January 1, 2011, and before July 6, 2017) are required to contribute 8.50 percent of their pensionable salary to the pension fund.

Required Tier 3 members (hired on or after July 6, 2017) are required to contribute the minimum of 11.50 percent or the total normal cost (subject to a floor of 8.50 percent) of their pensionable salary to the pension fund.

Elective Tier 3 members (Tier 2 members who irrevocable elect to be subject to the Tier 3 benefit structure) are required to contribute a percentage of their pensionable salary to the pension fund, according to the following schedule:

Summary of Principal Eligibility and Benefit Provisions As of December 31, 2017

- 9.50 percent beginning July 6, 2017;
- 10.50 percent beginning January 1, 2018; and
- Minimum of 11.50 percent or the total normal cost (subject to a floor of 8.50 percent) beginning January 1, 2019.

Beginning with the first pay period on or after the date when the funded ratio of the Fund is first determined to have reached the 90 percent funding goal and each pay period thereafter for as long as the Fund maintains a funding ratio of 75 percent or more, employee contributions for required and elective Tier 3 members shall be 7.50 percent of their pensionable salary.

For participants that first became members on or after January 1, 2011, pensionable salary, upon which member contributions are made, is limited to \$106,800 in 2011, increased by the lesser of 3 percent and one-half of the annual unadjusted percentage increase in the Consumer Price Index-U (but not less than zero) as measured in the preceding 12-month period ending with the September preceding the November 1, which is the date that the new amount will be calculated and made available to the pension funds.

Beginning in payment year 2018, the City's required annual contribution to the Fund for payment years 2018 through 2022 shall be:

- Payment year 2018 — \$36,000,000
- Payment year 2019 — \$48,000,000
- Payment year 2020 — \$60,000,000
- Payment year 2021 — \$72,000,000
- Payment year 2022 — \$84,000,000

For payment years 2023 through 2058, the City's required annual contribution to the Fund shall be equal to the sum of (1) the City's portion of the projected normal cost for that fiscal year, plus (2) an amount determined on a level percentage of applicable employee payroll basis that is sufficient to bring total assets of the Fund up to 90 percent of the total actuarial liabilities of the Fund by the end of 2058.

For payment years after 2058, the City's required annual contribution to the Fund shall be equal to the amount, if any, needed to bring the total actuarial assets of the Fund up to 90 percent of the total actuarial liabilities of the Fund as of the end of the year.

If the City does not make the statutorily required contributions, then the State, starting in payment year 2018, could withhold State grants to the City, and directly deposit the withheld funds in the Laborers' and Retirement Board Employees' Annuity and Benefit Fund of Chicago. The withheld funds are limited to 33 percent of total State grants to the City in payment year 2018, 67 percent in payment year 2019, and 100 percent on and after payment year 2020.

Summary of Principal Eligibility and Benefit Provisions As of December 31, 2017

Tax Shelter of Employee Salary Deductions

Beginning January 1, 1982, the City employee salary deductions were designated for income tax purposes to be made by the employer. The W-2 salary is therefore reduced by the amount of contributions. For pension purposes the salary remains unchanged. Income tax will be paid when a refund or annuity is granted. For the purposes of benefits, refunds or financing, these contributions are treated as employee contributions.

Beginning September 1, 1981, the Board of Education paid contributions in the amount of 7.00 percent of the employee's salary. The 1985 amendments contained a provision whereby the amount of pick-up, if any, is included in the pensionable salary for contributions and benefits. Such provision was retroactive to September 1, 1981. Beginning May 28, 2000, the remainder of contributions due for Board of Education employee salary deductions was designated for income tax purposes to be made by the employer and treated in the same manner as City employee salary deductions.

Salary and COLA Development for Members Hired on or After January 1, 2011

Calendar Year	CPI-U	1/2 CPI-U	COLA	Maximum Annual Pensionable Earnings
2011				\$106,800.00
2012	3.90%	1.95%	1.95%	\$108,882.60
2013	2.00%	1.00%	1.00%	\$109,971.43
2014	1.20%	0.60%	0.60%	\$110,631.26
2015	1.70%	0.85%	0.85%	\$111,571.63
2016	0.00%	0.00%	0.00%	\$111,571.63
2017	1.50%	0.75%	0.75%	\$112,408.42
2018	2.20%	1.10%	1.10%	\$113,644.91

HISTORICAL INFORMATION

Exhibit R

Legislative Changes 1984 through 2017

1984

Public Act 83-1257 (HB 3128)

- Approved August 15, 1984.
- Direct deposit.
- Illinois Public Employees' Pension Laws Commission abolished.

1985

Public Act 84-0159 (HB 398)

- Approved August 15, 1985.
- 1.80, 2.00, 2.20, 2.40 percent benefit accrual rate for those born before January 1, 1936, and retiring after August 16, 1985.
- Reduction in age discount factor (employee and widow) from 0.50 percent to 0.25 percent for employees born before January 1, 1936, and retiring or dying in service after August 16, 1985.
- Health insurance supplement up to \$25 per month if the employee is age 65 or older with at least 15 years of service (for each employee annuitant in receipt of annuity and for each employee who retires on annuity in the future).
- Disability provisions extended to age 70 in certain cases.
- Unisex money purchase factors for widows/widowers.
- Membership provisions extended to age 70.
- Board of Education employee contribution "pick up" included in the definition of salary for contribution and benefit purposes.

1986

Public Act 84-1472 (HB 2630)

- Effective January 23, 1987.
- Cap removed on spouse maximum annuity.
- Automatic post-retirement increase to begin on first anniversary of retirement following attainment at age 60.

Exhibit R

Legislative Changes 1984 through 2017

1987

Public Act 85-0964 (HB 2715)

- Approved December 9, 1987.
- 1.80, 2.00, 2.20, 2.40 percent benefit accrual rate for those born on or after January 1, 1936, and retiring on or after January 1, 1988.
- Reduction in age discount factor (employee and widow) from 0.50 percent to 0.25 percent for employees born on or after January 1, 1936, and retiring or dying in service on or after January 1, 1988. No discount for employee age less than 60 if employee has at least 35 years of service.
- Minimum employee annuity of \$250 and minimum spouse annuity of \$200 under certain conditions.
- Change amount of children's benefits to \$120 or \$150 effective January 1, 1988.
- Provide for certain "Good Government" initiatives.
- Remove chronic alcoholism restriction for ordinary disability.

1988

- No changes.

1989

Public Act 86-0273 (SB 95)

- Approved August 23, 1989.
- Changed the amount of fund paid health insurance "supplement" from January 1, 1988, until December 31, 1992, to \$65 per month for each annuitant not qualified to receive Medicare benefits (and \$35 if qualified) and from January 1, 1993, until December 31, 1997, the amounts are \$75 and \$45, respectively. Widows will now be supplemented and employee annuitants will no longer be required to meet the age 65 and 15 years of service requirements. The City will be required to pay 50 percent of the aggregated cost of health care claims for the retired group under all health care plans offered by the City. A procedure was established for the City to determine, with the help of an independent actuary, the aggregate cost of claims and premiums for each calendar year from 1989 through 1997 for the retired group.

Exhibit R

Legislative Changes 1984 through 2017

Public Act (HB 332)

- Approved August 23, 1989.

- Eliminated age related discriminatory provisions as required by Federal law or regulation. Provided for Age Discrimination changes effective January 1, 1988, to eliminate age 65 requirements for marriage in service and children's benefits, provided contributions after age 65 for spouse benefits, provided employee accumulation annuities be computed after age 70, provided employee and spouse accumulation annuities not be "fixed" at age 65, provided no age 70 restriction on disability benefits, provided for active members over age 65 that their accounts be "unfixed" and accumulate interest until the date of withdrawal, and provided that there be no age 70 membership limitation and removed the permitted "no spouse" refund at age 65.

- Eliminated the \$300, \$400 or \$500 maximum spouse annuity limitation for spouses of employees who retired before January 23, 1987, but die after January 23, 1987.

- Allow for local labor officials on a leave of absence from the Fund to contribute for their current service as a local labor official.

1990

Public Act 86-0957 (SB 136)

- Effective January 1, 1990.

- Amends Chapter 120, Paragraph 671 of the Revenue Act to provide for a separate listing on the tax bill of the dollar amount of tax due from the person assessed which is allocable to a tax levied under the Illinois Pension Code, or any other tax levied by a municipality or township for public pension or retirement purposes.

1991

Public Act 86-1488 (SB 1951)

- Approved January 14, 1991.

- Beginning for withdrawals on or after January 1, 1991, annuity payments will be made as of the first day of the calendar month during the annuity payment period.

- 2.20 percent benefit accrual rate for employees retiring on or after July 1, 1990.

Exhibit R

Legislative Changes 1984 through 2017

- No discount for employee age less than 60 if employee has at least 30 years of service and retires on or after July 1, 1990.
- Minimum employee annuity of \$350 and minimum spouse of \$300 under certain conditions.
- Spouses and widows of employees retiring or dying in service on or after July 1, 1990, with 20 or more years of service at age 55 or over will be eligible for half of the employees' annuity discounted 0.25 percent for each month the spouse or widow is less than 55.
- Retroactive eligibility for 35 years no discount and spouse and widow annuities computed as half of employee annuity.
- Refund in lieu of \$300 annuity.
- Disability benefit retroactive one year from application; duty disability deductions in lieu for heart attack or stroke; 10 percent increase in duty disability benefit January 1 of the sixth year.
- Collateral for securities lending expanded.
- Fractional payment for refund repayment and temporary service authorized. Credit established by fractional payment shall be earliest service for which credit may be established.

1992

- No change.

1993

Public Act 87-1265 (SB 1650)

- Approved January 25, 1993.
- Transfer provisions for County elected officers and judges.
- Early Retirement Incentive was created for withdrawals from December 31, 1992, to June 30, 1993.
 - Requires a total of 20 years of service (with at least 10 in this fund, and up to five purchased under ERI).
 - Requires age 55 or older.

Exhibit R

Legislative Changes 1984 through 2017

- Requires an election form to be filed before June 1, 1993.
- Requires a member to be a current contributor on November 1, 1992, and have not previously retired under this Article.
- Provides for elimination of the age discount for employees 55-60.
- Provides for 80 percent maximum final average salary compared to the present 75 percent.
- Provides for an optional purchase of up to five years of service credit for 4.25 percent of the November 1, 1992, salary.
- Provides for a 24-month option to pay for ERI service.
- Provides for a tax levy derived from ERI contributions.

1994

- No change.

1995

Public Act 89-0136 (SB 114)

- Approved July 14, 1995.
- The amount of earnings that may be taken into account by any retirement system is limited to the maximum dollar limitation specified in Section 401(a)(17) of the Internal Revenue Code, except for persons who became participants before 1996.
- The Fund is authorized to make certain involuntary distributions required by Section 401(a)(9) of the Internal Revenue Code.

Public Act 89-0113 (SB 424)

- Approved July 7, 1995.
- The Pension Laws Commission was created as a legislative support services agency.

1996

SBJPA

- On August 20, 1996, the Small Business Job Protection Act was signed by President Clinton.

Exhibit R

Legislative Changes 1984 through 2017

- Treatment of governmental plans under Code Section 415:
 - Rule limiting annual benefit to 100 percent of the average of the highest three-year compensation no longer applies.
 - Excess benefit plans are permitted to provide participants with benefits in excess of the Code Section 415 limits.
 - Early retirement reduction does not apply to certain survivor and disability benefits.
 - The definition of compensation now includes elective deferrals.
- Taxation of distributions:
 - \$5,000 death benefit exclusion was repealed for deaths after August 20, 1996.
 - Five-year averaging for lump sum distributions was repealed effective January 1, 2000.
 - Annuity payments will be taxed according to a simplified general rule which uses investment and age as of annuity starting date for annuities which start on or after November 19, 1996.

1997

Public Act 90-0031 (HB 15)

- Approved June 27, 1997.
- For withdrawals from service occurring on or after July 1, 1990, an alternate method of calculating salary using the annual equivalent of average salary instead of the salary rate applicable for the greatest part of the year is allowed.
- Annuities effective on or after January 1, 1998, will be payable on the first day of the calendar month.
- The prudent person rule for investing is allowed.
- An eligible employee is allowed to contribute for all periods of temporary service while still in City service, for up to 90 days after withdrawal from City service, or while in reciprocal service.
- The Board is allowed to adopt rules prescribing the manner of repaying refunds and purchasing any optional credit including accepting rollovers for payments.

Exhibit R

Legislative Changes 1984 through 2017

- The City is allowed to use deposits from any legal source (including borrowing) in lieu of all or part of the tax levy on or after June 27, 1997.
- The requirement that any person employed by a retirement board of any other annuity and benefit fund in the City apply for participation in the Fund is eliminated.
- Payment is allowed for service as a police officer, firefighter or public school teacher in the City.

Public Act 90-0032 (HB 313)

- Approved June 27, 1997.
- For withdrawals from service occurring on or after June 27, 1997, an employee (and spouse) age 50 or over with at least 30 years of service is eligible to receive an annuity based on the minimum annuity formula.
- For withdrawals from service occurring on or after June 27, 1997, an employee under age 60 with at least 25 years of service is not subject to an age discount.
- The spouse of an employee dying on or after June 27, 1997, while receiving an annuity is eligible for one half of the employee's annuity at death, discounted for the spouse's age under 55 at the time of employee's death. Excess spouse refund, if any, must be repaid.
- Beginning June 27, 1997, employees already receiving annuity will receive a minimum annuity of \$550 for life (reciprocal annuitants must have at least five years of Laborers' service). Any future employee annuitant withdrawing from service after attainment of age 60 with 10 or more years of service would qualify for this minimum.
- Beginning June 27, 1997, widow(er)s already receiving annuity will receive a minimum annuity of \$500 for life (reciprocal annuitants must have at least five years of Laborers' service). For future spouses of retirees, 10 years of service is required. For spouses of employees dying in service in the future, five years of service is required.
- Beginning June 27, 1997, the child's annuity will be increased to \$220 per month if the spouse of the deceased employee parent survives or \$250 per month if no such spouse survives.
- Coverage in the City group health insurance is extended through June 30, 2002, with some modification in the plans offered. Pension fund supplement remains \$45 and \$75 for Medicare eligible and non-Medicare eligible annuitants respectively.
- Beginning June 27, 1997, spouses of employees dying in service after age 50, with at least 30 years of service or after age 55 with 25 years of service, will be eligible to receive 50 percent of the

Exhibit R

Legislative Changes 1984 through 2017

annuity that the employee would have received. This annuity will be reduced by 0.25 percent per month for each month that the spouse is below the age of 55.

Public Act 90-0511 (HB 1641)

- Approved August 22, 1997.
- Beginning August 22, 1997, for spouses of employees who retired or died in service before January 23, 1987, the previous \$300, \$400 or \$500 maximum spouse annuity limitation is removed. If an excess spouse refund was paid, it must be repaid with interest.
- Service paid under Section 11-221 can be counted for ordinary disability purposes for periods of disability on or after August 22, 1997.
- Early Retirement Incentive was created for withdrawals from December 31, 1997, to June 30, 1998.
 - Requires a total of 20 years of service (with at least 10 in this fund, up to five in a Reciprocal fund, and up to five purchased under ERI) and age 55 or older.
 - Requires a total of 30 years of service (with at least 10 years of that service in this fund and without including any service purchased under the ERI provisions) and age 50 or older.
 - Requires an election form to be filed before June 1, 1998.
 - Requires a member to be a current contributor on November 1, 1997, and have not previously retired under this Article.
 - Provides for elimination of the age discount for employees age 55 to 60.
 - Provides for 80 percent maximum final average salary compared to the present 75 percent.
 - Provides for an optional purchase of up to five years of service credit for 4.25 percent of the November 1, 1997, salary.
 - Provides for a 24-month option to pay for ERI service.
 - Provides for a tax levy derived from ERI contributions.

1998

Public Act 90-0766 (HB 3515)

- Approved August 14, 1998.

Exhibit R

Legislative Changes 1984 through 2017

- Beginning January 1, 1999, the automatic increase for employee annuitants changed to 3.00 percent compounded for all past, current and future annuitants regardless of the effective date of the annuity. Term annuities are not eligible for the increase.
- Employees withdrawing after January 1, 1999, will be eligible for the minimum formula upon attainment of age 60 if they have at least 10 years of service.
- Beginning January 1, 1999, employees already receiving an annuity as of August 14, 1998, will receive a minimum annuity of \$850 for life (reciprocal annuitants must have at least five years of Laborers' service). Any future employee annuitant withdrawing from service after August 14, 1998, after attainment of age 60 with 10 or more years of service would qualify for this minimum.
- Beginning January 1, 1999, widow(er)s already receiving annuity as of August 14, 1998, will receive a minimum of \$800 for life (reciprocal annuitants must have at least five years of Laborers' service). For future spouses of retirees dying after August 14, 1998, 10 years of service is required. For spouses of employees dying in service after August 14, 1998, five years of service is required.
- The conditions of the reversionary option were changed as follows:
 - The nullification of reversionary payment due to employee dying was reduced to 365 days after written designation was filed with the board and now applies only to parents, children and siblings (not spouses).
 - Employees may reduce their monthly annuity by as much as \$400.
 - The increased annuity for spouse may now be as much as 100 percent of the reduced employee annuity.
- Spouses and widows that are eligible for the "50 percent employee amount" will no longer have this amount reduced for under age 55 if the employee dies on or after January 1, 1998, and withdrew from service on or after June 27, 1997, and the employee retired after age 55 with at least 25 years of service or after age 50 with at least 30 years of service. The age discount will only apply if the spouse is under age 50.
- The child of an annuitant who withdraws after January 1, 1998, having attained age 50 with at least 30 years of service is eligible for a child annuity upon the death of the annuitant.
- The required employer multiple has been set at 1.00 for 1999 and beyond.
- Money deposited under 5/11-169(f) may be used by the Fund for any of the purposes for which the proceeds of the tax levied by the City under this section may be used.

Exhibit R

Legislative Changes 1984 through 2017

- The number of board members is changed from five to eight. The makeup of the board is two ex-officio members, three appointed persons, two employees and one annuitant.

Public Act 90-0731 (HB 1612)

- Effective July 1, 1999.
- Qualified Illinois Domestic Relations Orders recognized.

1999

- No Change.

2000

Public Act 91-0887 (HB 1583)

- Approved July 6, 2000.
- An employee or widow whose annuity would amount to less than \$800 per month may elect to receive a refund in lieu of annuity. Formerly, only employees and widows whose annuity would be less than \$300 per month could choose a refund.
- The reversionary annuity tables have been extended down to age 50 from age 55 to comply with the change in the law allowing retirement at age 50 with 30 years of service.
- The Board is allowed to pay an annuity (if the person qualifies) directly to a Medicare approved, State certified nursing home or to a publicly owned and operated nursing home, hospital or mental institution. Each person must qualify under the provisions of this amendment.
- Annuities of widows who remarry on or after the date 60 days after the effective date of this amendment would not be terminated upon remarriage.
- For annuities effective before January 1, 1998, all annuity payments will be made on the first day of the calendar month, for the entire month without proration.

2001

EGTRRA

- On June 7, 2001, the Economic Growth and Tax Relief Reconciliation Act of 2001 was signed by President Bush.

Exhibit R

Legislative Changes 1984 through 2017

- Beginning January 1, 2002, payments for eligible optional service credits may be made with funds rolled over from a 457 deferred compensation plan or a 403(b) tax deferred annuity plan (if allowed by the 457 or 403(b) plan).

2002

Public Act 92-0609 (SB 314)

- Effective July 1, 2002.
- The accrual rate for the minimum formula annuity is changed from 2.20 percent to 2.40 percent of final average salary and the maximum annuity is changed from 75 percent to 80 percent of final average salary for employees withdrawing from service on or after January 1, 2002.
- The 3.00 percent post-retirement automatic increase will now begin no later than three years after retirement for an eligible retiree (an eligible retiree is an employee annuitant, not a widow or widower annuitant, originally granted a lifetime annuity). For eligible retirees less than age 60 on the first anniversary of retirement, the 3.00 percent increase will begin at the earlier of age 60, and the latest of the following dates:
 - The third anniversary of retirement;
 - The attainment of age 53; or
 - January 1, 2002.

For eligible retirees age 60 or older on the first anniversary of retirement, the 3.00 percent increase will begin on the first anniversary of retirement.

Public Act 92-0599 (HB 5168)

- Effective June 28, 2002.
- For the eligible spouse of an employee who dies in service on or after August 28, 2002, with at least 10 years of service, the annuity is no less than 50 percent of the minimum formula annuity the employee would have been entitled to based on service and salary to the date of death without regard to age eligibility requirements. This is equal to 2.40 of final average salary for each year of service. The employee and the spouse must have been married for ten years.
- For children of employees who die in service on or after June 28, 2002, there is no service requirement for eligibility for children's annuity.

Exhibit R

Legislative Changes 1984 through 2017

- The definition of “child” now includes any child adopted before employee withdraws from service and at least one year prior to the date any benefit for the child accrues. Previously the adoption also had to take place before the employee attained age 55.
- For ordinary disability benefits paid on or after January 1, 2001, the ordinary disability benefit is 50 percent of the employee’s salary at the date of disability with the amounts ordinarily contributed by the employee for annuity purposes contributed by the Fund. These contributions are not refundable.
- The pension fund supplement for retiree health insurance was extended through June 30, 2003. For annuitants (other than child annuitants) taking the employer-provided plan, the supplement is \$75 per month if the annuitant is not eligible for Medicare and \$45 per month if the annuitant is eligible for Medicare.

2003

Public Act 93-0042 (SB 1701)

- Approved June 27, 2003, and effective July 1, 2003.
- The healthcare benefits were increased to \$85 per month for non-Medicare eligible participants and \$55 per month for Medicare eligible participants for the period from July 1, 2003, through June 30, 2008. Thereafter, the benefits are increased from \$85 to \$95 and \$55 to \$65 for the period July 1, 2008, to June 30, 2013.
- The healthcare benefits referred to above are not and shall not be construed to be pension or retirement benefits for the purposes of Section 5 of Article XIII of the Illinois Constitution of 1970.

2004

Public Act 93-0654 (HB 600)

- Effective January 16, 2004.
- Early Retirement Incentive was created for withdrawals from January 31, 2004, to February 29, 2004 (or to May 31, 2004, for those deemed critical employees).
 - Requires an election form to be filed before January 31, 2004.
 - Requires a member to be a current contributor who has not previously retired under this Article and satisfy one of the following:

Exhibit R

Legislative Changes 1984 through 2017

- Active as of October 15, 2003
 - Returned to active from approved leave of absence prior to December 15, 2003
 - Receiving ordinary or duty disability benefits as of October 15, 2003
 - Restored to service by January 31, 2004, after having been involuntarily laid off
-
- Requires that employees that reenter service forfeit their right to receive benefits and will have their benefits recalculated at the time of retirement excluding the benefits provided under the ERI.
 - Requires that the participant is age 50 with 10 years of creditable service in this Fund and have 70 combined years of age and service, with service in one or more systems under the Reciprocal Act (excluding service purchased under the ERI).
 - Provides for elimination of the age discount for employees younger than age 60.
 - Provides for an optional purchase of up to five years of service credit for 4.25 percent of the monthly salary rate in effect October 15, 2003.
 - Provides for a 24-month option to pay for ERI service.
 - Provides for the exclusion of ERI contributions from the base from which the tax levy is derived.
 - Provides for the exclusion of the liabilities arising from the ERI for the purpose of determining if a contribution by the city is required.
 - Provides for a lump sum benefit option of 100 percent of salary at retirement and an actuarially reduced monthly annuity for those employees who were eligible for the maximum benefit (excluding purchased service under the ERI).
 - Allows Board members to continue until the end of their terms without forfeiting the benefits provided by the early retirement incentive.
-
- Automatic increases in annuities will now take effect in the January of each year in which they are to be provided.
 - An employee who previously withdrew contributions from the Fund, may have his rights under the Fund restored after repaying the withdrawn contributions with interest after completing the required amount of service after the date of refund. The required service is:
 - 90 days of service under this Fund; or
 - Two years of service under any participating Fund under the Reciprocal Act.

Exhibit R

Legislative Changes 1984 through 2017

- Employees may elect to have their optional contributions “picked-up” by the employer, to be treated as employer contributions for tax purposes. The employee election is irrevocable.
- For the eligible spouse of an employee who died in service on or after January 1, 2002, and before August 28, 2002, with at least 10 years of service, the annuity is no less than 50 percent of the minimum formula annuity the employee would have been entitled to based on service and salary to date of death without regard to age eligibility requirements. This minimum formula annuity is equal to 2.40 percent of final average salary for each year of service. The employee and spouse must have been married for ten years.

2005

Public Act 94-0079 (SB 23)

- Approved June 27, 2005.
- Prohibits the investment or deposit from the retirement system or pension fund to certain entities doing business in or with the government of the Republic of the Sudan. Fund managing companies must certify that under Section 1-110.5 of the pension code that they have not loaned to, invested in or otherwise transferred any of the pension fund assets to a forbidden entity.

Public Act 94-0471 (SB 253)

- Approved August 4, 2005.
- Provides that, to qualify as an “emerging investment manager,” the maximum value of an investment portfolio that a manager manages is \$2,000,000,000 (was \$400,000,000).

Public Act 94-0657 (SB 1446)

- Approved August 22, 2005, and effective July 1, 2006.
- Provides for various changes in provisions and procedures concerning Qualified Illinois Domestic Relations Orders. Allows for alternate payee’s benefit to be based on a percentage of employee’s benefit.

2006

- No Change.

2007

Public Act 94-1057 (HB 49)

- Approved August 17, 2007.

Exhibit R

Legislative Changes 1984 through 2017

- Provides that, beginning on the effective date, legally adopted children shall be entitled to the same benefits as other children, and no child's or survivor's benefit shall be disallowed because the child is an adopted child.

Public Act 95-0521 (SB 1169)

- Approved August 28, 2007.
- Provides that, in order for an Illinois finance entity to be eligible for investment or deposit of retirement system or pension fund assets, the Illinois finance entity must annually certify that it complies with the requirements of the High Risk Home Loan Act and the rules adopted pursuant to that Act that are applicable to that Illinois finance entity. Requires the retirement system or pension fund to divest its assets with the Illinois finance entity if the certification is not made. Provides that these certification requirements are severable.

2008

- No Change.

2009

Public Act 95-1036 (SB 2520)

- Approved February 17, 2009.
- Provides that, before any action is taken by the Board on an application for a duty disability benefit or a widow's compensation or supplemental benefit, the employee or widow shall file a claim with the employer to establish that the disability or death occurred while the employee was acting within the scope of and in the course of his or her duties. Provides an offset of disability benefits for any amounts provided to the employee or surviving spouse as temporary total disability payments, permanent disability payments, a lump sum settlement award or other payment under the Workers' Compensation Act or the Workers' Occupational Diseases Act. Makes other changes concerning disability benefits.

Public Act 96-0753 (HB 2557)

- Approved August 25, 2009.
- Provides that it is the public policy of the State to encourage pension funds to promote the economy of Illinois through the use of economic opportunity investments within the bounds of financial and fiduciary prudence. Provides that the pension funds submit a report to the Governor and General Assembly by September 1 of each year identifying the economic opportunity investments made by the Fund, the primary location of the business or project, the percentage of the Fund's assets in economic opportunity investments and the actions the Fund has taken to increase the use of economic opportunity investments.

Exhibit R

Legislative Changes 1984 through 2017

- Requires the Fund to instruct the investment advisors to utilize investment strategies designed to ensure that all securities transactions are executed in such a manner that the total explicit and implicit costs and the total proceeds in every transaction are the most favorable under the circumstances.

Public Act 96-0006 (SB 364)

- Approved April 3, 2009.
- Requires Board members to file a verified written statement of economic interest annually with the office of the Clerk of Cook County.
- Requires the Board to adopt a policy that sets quantifiable utilization goals for the management of assets in specific asset classes for emerging investment managers. Goals shall be separated by minority ownership, female ownership and person with a disability ownership.
- Requires that if at least one emerging firm(s) meet criteria of search process, at least one shall be invited to present to the Board for final consideration.
- Requires the Board to adopt a policy that sets forth goals for increasing the racial, ethnic and gender diversity of its fiduciaries, including its consultants and senior staff.
- Requires the Board to adopt a policy that sets forth goals for utilization of WMDBE firms for all contracts and services, based on the percentage of total dollar amount of all contracts let.
- Requires the Board to adopt a policy that sets forth goals for increasing the utilization of minority broker-dealers.
- Requires an annual report to the Governor and General Assembly on the utilization of “emerging firms” as defined by Article 1 of the Pension Code.
- Requires the Board to award all contracts for investment services using a competitive process that is substantially similar to the process required for the procurement of professional services under Article 35 of the Illinois Procurement Code. Requires the Board to adopt a procurement policy which will be posted on the Fund’s website and filed with the Illinois Procurement Policy Board.
- Provides that a person may not act as a consultant or investment adviser unless that person is registered as an investment adviser or bank under the Federal Investment Advisers Act of 1940.
- Requires investment contracts between the Retirement Board and investment service providers to include certain required information.
- Provides that consultant contracts cannot exceed five years in duration; however, incumbent consultant may compete for new contract.

Exhibit R

Legislative Changes 1984 through 2017

- Requires investment consultants and advisers to disclose all direct and indirect fees, commissions, penalties and other compensation paid by or on behalf of the investment consultant or adviser in connection with the services provided.
- Requires that a description of every contract let for investment services be posted on the website, including name of entity awarded the contract, amount of contract, total fees paid and disclosure describing the factors that contributed to the selection.
- Requires the Fund to maintain a website that shall include standard investment reporting, a copy of relevant Board policies, a listing of investment consultants and managers, a notification of any requests for investment services and the names and e-mail addresses of Board members, Fund directors and senior staff.
- Requires Board members to attend at least eight hours of ethics training per year and requires each Board to annually certify its members' compliance and submit an annual certification to the Division of Insurance of the Department of Financial and Professional Regulation.
- Prohibits any Fund trustee or employee or their spouses or immediate family living with them to intentionally solicit or accept any gift from any prohibited source as prescribed in Article 10 of the State Officials and Employees Ethics Act, including educational materials and missions and travel expenses for discussing Fund business.
- Provides that any person who knowingly makes any false statement or falsifies or permits falsifying any record of the pension fund in an attempt to defraud is guilty of a Class 3 felony.
- Provides that no person or entity shall retain a person or entity to influence the outcome of an investment decision or the procurement of investment advice to a pension fund for compensation, contingent upon the decision of the Board.
- Requires approval for travel or education mission expense of a Trustee by a majority of the Board prior to the mission.

Public Act 96-0586 (SB 1440)

- Approved August 18, 2009.
- Provides that the Fund may, and to the extent required by federal law shall, allow an employee to roll over a refund, lump-sum benefit, or other non-periodic distribution (including the non-taxable portion) directly to any entity that is designated in writing by the person, is qualified under federal law to accept the distribution, and has agreed to accept the distribution.

Exhibit R

Legislative Changes 1984 through 2017

2010

Public Act 96-0889 (SB 1946)

- Approved April 14, 2010 and effective January 1, 2011.
- Establishes a new tier of benefits for participants that first become members on or after the effective date.
 - Final average compensation is based on the average of the highest consecutive eight years within the last ten years of service.
 - Establishes a cap on final average salary of \$106,800, as automatically increased by the lesser of 3 percent or one-half of the annual increase in the Consumer Price Index-U during the preceding 12-months
 - Increases eligibility for a retirement annuity:
 - Age 67 with 10 years of service for an unreduced benefit.
 - Age 62 with 10 years of service for a reduced benefit. Reduction is one-half percent for each full month that retirement precedes age 67.
 - Changes provisions for automatic increases in annuity:
 - Increases begin in the year following the later of the first anniversary of the annuity start date and attainment of age 67
 - Increases are equal to the lesser of 3 percent or one-half of the annual increase in the Consumer Price Index-U during the preceding 12 months
 - Increases are based on the amount of the originally granted benefit (not compounded).
 - Changes benefits provided to surviving spouses:
 - Surviving spouse annuity is equal to 66 2/3 percent of the participant's earned retirement annuity at the date of death
 - Provides an automatic increase in annuity
 - Increases begin on January 1 in the year following the commencement of the survivor's annuity if the deceased member died while receiving a retirement annuity and January 1 following the first anniversary of commencement otherwise
 - Increases are equal to the lesser of 3 percent or one-half of the annual increase in the Consumer Price Index-U during the preceding 12 months
 - Increases are based on the amount of the originally granted benefit (not compounded).
 - Establishes that members that are receiving a retirement annuity and accept a full-time position under the same Article or another Article established under the Illinois Compiled Statutes, would have their benefits suspended during employment. Their benefits would be recalculated, if applicable, upon termination of employment.

Public Act 96-1490 (SB 550)

- Approved December 30, 2010, and effective January 1, 2011.
- Amends certain provisions established in SB1946 that apply to participants that first become members on or after the effective date:

Exhibit R

Legislative Changes 1984 through 2017

- Establishes the period for calculating the annual unadjusted percentage increase in the Consumer Price Index-U as the 12-month period ending with September for purposes of capping salary and calculating the automatic increase in annuity percentage.
- Establishes that the salary cap of \$106,800 applies for all purposes under the Code, including the calculation of benefits and employee contributions.
- Establishes that the survivor's annuity is calculated with no reduction due to age.
- Establishes that members who withdraw before age 62, or with less than 10 years of service, regardless of age, are entitled to all salary deductions for retirement annuity and spouse annuity accumulated with interest to date of resignation, plus the 0.50 percent deducted for annuity increase purposes without interest.
- Establishes that increases in annuity for employee annuitants commence on January 1.

2011

Public Act 97-0530 (SB 1672)

- Approved August 23, 2011.
- Requires all pension funds and retirement systems subject to the Code to comply with the federal Heroes Earnings Assistance and Relief Tax Act of 2008.

Public Act 97-0609 (SB 1831)

- Approved August 26, 2011, and effective January 1, 2012.
- Applies to those members hired on or after the effective date.
 - Provides that if a new hire is receiving a retirement annuity or pension and accepts a contractual position to provide services to a governmental entity from which he or she has retired, then that person's annuity or pension will be suspended during that contractual service.
 - Makes it a Class A misdemeanor for a pensioner who is seeking contractual employment to fail to notify certain persons about his or her retirement status before accepting an employment contract.

Public Act 97-0504 (HB 1670)

- Approved August 23, 2011.
- Amends the Open Meetings Act.
 - Requires each elected or appointed member of a public body subject to this Act who is such a member on the effective date of the amendatory Act to successfully complete the electronic training curriculum developed and administered by the Public Access Counselor.
 - Requires those members to complete the training not later than one year after the effective date of the amendatory Act.

Exhibit R

Legislative Changes 1984 through 2017

- Requires each elected or appointed member of a public body subject to the Act who becomes such a member after the effective date of the amendatory Act to successfully complete the electronic training curriculum developed and administered by the Public Access Counselor.
- Requires those members to complete the training not later than the 90th day after the date the member either (i) takes the oath of office, if the member is required to take an oath of office to assume the person's duties as a member of the public body or (ii) otherwise assumes responsibilities as a member of the public body, if the member is not required to take an oath of office to assume the person's duties as a member of the governmental body.
- Requires each member who successfully completes the curriculum to file a copy of the certificate of completion with the public body.
- Provides that the failure of one or more members of a public body to complete the training required by this Section does not affect the validity of an action taken by the public body.
- Provides that an elected or appointed member of a public body subject to this Act who has successfully completed the required training and filed a copy of the certificate of completion with the public body is not required to subsequently complete that training.

2012

Public Act 97-0651 (HB 3813)

- Approved and effective January 5, 2012.
- Requires any reasonable suspicion of fraud against the Fund to be reported to the State's Attorney for investigation.
- Changes provisions for Union Leaves of Absence as follows:
 - Service credit can be accrued only for union leaves that begin before the effective date of this amendatory Act.
 - "Any pension plan established by the local labor organization" is defined as any pension plan in which the member can receive credit as a result of his membership in the local labor organization. This is a declaration of existing law.
 - Salary used for calculation of final average salary must be a salary paid by an employer, not by the union. This is a declaration of existing law.
 - Minimum annuity section 11-134 is changed to add to the final average salary the product of (1) final average salary, (2) the average percentage increase in the CPI during the leave of absence and (3) the number of years of leave of absence. This does not seem to deal with a situation where the employee may have been on leave within the last 10 years but is last with Laborers. It also only amends paragraph (f-1) which applies to those members who go on annuity on or after the attainment of age 60.
 - Does not change that contributions are based current salary with the union.

Public Act 97-0967 (HB 3969)

- Approved and effective August 16, 2012.

Exhibit R

Legislative Changes 1984 through 2017

- Applies if the member retired after the effective date with less than two years of service in a participating system under the Reciprocal Act after General Assembly service.
- Requires that if the final average salary in a participating system is used to calculate the annuity, the employer must pay the General Assembly Retirement System for any increased cost of the General Assembly annuity that is attributable to the higher salary under the participating system.

2013

Public Act 98-0043 (SB 1584)

- Approved and effective June 28, 2013.
- Changes the duration of health insurance supplement payments to eligible employee annuitants to “Beginning July 1, 2008 and until such time as the city no longer provides a health care plan for such annuitants or December 31, 2016, whichever comes first.”

Public Act 98-0433 (HB 2620)

- Approved and effective August 16, 2013.
- Allows for an additional exception to the RFP process for obtaining investment services for “contracts for follow-on funds with the same fund sponsor through close-end funds.”

2014

Public Act 98-0641 (SB 1922)

- Approved and effective June 9, 2014.
- Implements a funding policy designed to achieve 90% funded ratio by 2055
- Provides for incrementally increased employer contribution multiple which eventually converts to actuarial based funding.
- Caps the current pension levy at the full required city contribution amount.
- Creates payment obligation to the fund, provides enforcement.
- Provides for incrementally increased employee contributions.
- Tier 1: Ties annual increase in retirement annuity to inflation, subject to 3% cap, delays initial annual increase by one year, and eliminates annual increases in 2017, 2019 and 2025 for most annuitants.
- Tier 2: Reduces minimum retirement age by two years, delays the initial annual increase by one year, and eliminates the annual increases in 2025.

Exhibit R

Legislative Changes 1984 through 2017

Public Act 98-1022 (HB 452)

- Approved and effective August 22, 2014.
- Requires investment managers and consultants entering into a contract to disclose information on use of vendors owned by minorities, females and persons with disabilities.
- Requires minority consideration to be “within the bounds of financial and fiduciary prudence.”
- Defines “minority investment managers” and requires funds to adopt a policy to increase goals for utilization. Requires annual review.
- Declares it is the public policy of the State to encourage use of minority investment managers.

2015

Public Act 99-0462 (SB 1334)

- Approved August 25, 2015.
- Sets aspirational goals that, beginning January 1, 2016, at least 20% of the total funds under management be managed by emerging investment managers and that at least 20% of the investment advisors be minorities, females, and persons with disabilities.
- Sets the aspirational goal that, beginning January 1, 2016, at least 20% of contracts for “information technology services,” “accounting services,” “insurance brokers,” “architectural and engineering services” and “legal services” be awarded to businesses owned by minorities, females and persons with disabilities.

Johnson et al. v. Municipal Employees’ Annuity and Benefit Fund of Chicago, et al.

- Public Act 98-0641 was ruled unconstitutional by the circuit court on July 24, 2015. On March 24, 2016, the Illinois Supreme Court affirmed the circuit court’s decision.
- Restores full automatic annual increase, the date of initial increase and eliminates increase holidays.
- For Tier 2, changes retirement age for unreduced benefits back to age 67 and for reduced benefits to age 62.
- Eliminates new funding policy.

2016

Public Act 99-0683 (HB 6030)

- Approved July 29, 2016

Exhibit R

Legislative Changes 1984 through 2017

- Mandates that by June 30, 2017, each retirement system implement a monthly procedure to identify deceased annuitants.
- Provides that each system shall have access to the vital records of the Illinois Department of Public Health at no cost to the system

2017

Public Act 100-0023 (HB 0042)

- Approved and effective July 6, 2017
- Implements a new funding policy designed to achieve 90% funded status by 2058. Employer required contributions are \$36MM in 2018; \$48MM in 2019; \$60MM in 2020; \$72MM in 2021; \$84MM in 2022; and for 2023 through 2058, contributions are determined as a level percentage of employee payroll sufficient to achieve 90% funding by 2058.
- Provides a new tier of benefits for participants who first become members on or after the effective date of July 6, 2017 (“Required Tier 3 Members”). Allows participants who first become members on or after January 1, 2011 and prior to July 6, 2017 to make a one-time irrevocable election to be subject to the new tier of benefits (“Elective Tier 3 Members”).
 - Introduces new annuity eligibility ages:
 - Age 65 with 10 years of service, unreduced
 - Age 60 with 10 years of service, reduced; reduction is ½ of 1% for each month that retirement precedes age 65.
 - Requires increased contributions:
 - Required Tier 3 Members will pay 11.5% of capped salary beginning July 6, 2017; and the lesser of 11.5% or normal cost (subject to 8.5% floor) effective January 1, 2018.
 - Elective Tier 3 Members will pay 9.5% effective July 6, 2017; 10.5% effective January 1, 2018; and the lesser of 11.5% or normal cost (subject to 8.5% floor) effective January 1, 2019.
 - When 90% funded status is reached, employee contributions drop from 11.5% to 7.5% and remain at 7.5% unless the funded ratio falls below 75%.
 - Changes the provisions for automatic increase in annuity:
 - Increases begin in the year following the later of the first anniversary of annuity start date and attainment of age 65.
- Provides that the governing body of the unit of local government may elect by ordinance or resolution to create a new tier of benefits—structured as a hybrid between a defined benefit and a defined contribution plan—which would be made available to certain members by choice in lieu of the benefits they would otherwise receive.

Exhibit R

Legislative Changes 1984 through 2017

- For participants who first become members on or after the effective date, allows the Fund to pursue subrogation when a death or disability benefit is payable if such death or disability was caused by a third party.
- For participants who first become members on or after the effective date, the Fund is authorized to reduce any refund which may become payable due to felony conviction relating to or arising out of or in connection with service as an employee by any annuity benefit previously received by the member or the member's beneficiaries.
- Allows payment of annuity to a member's federally insured financial institution or trust established by the member or for the benefit of the member; or if the member is confined to a publicly owned and operated mental institution, payment can be paid on the member's behalf to the superintendent or head of such institution.

Public Act 100-0334 (HB 0350)

- Approved and effective August 25, 2017
- States a person otherwise entitled to a survivor benefit and who has been convicted of a felony in connection with the service rendered by the member, is not eligible for such survivor benefit, if such conviction was after the effective date.
- It further states for participants that first becomes members after the effective date the change is a condition of employment.

Public Act 100-0542 (SB 1714)

- Approved and effective November 9, 2017
- Investment consultants are required annually, as well as prior to being hired, to provide certain disclosures regarding searches involving and investments made with minority owned businesses, female owned businesses and businesses owned by persons with disabilities. Such disclosures shall be considered within the bounds of financial and fiduciary prudence prior to the awarding of a new investment consulting contract.
- Investment consultants are required annually, as well as prior to being hired, to provide certain disclosures regarding all compensation and economic opportunity received in the last 24 months from any investment advisors retained by Fund or any investment advisor that is recommended for selection by the consultant.
